FOUNDER AUDIO GUIDE SPRINT TRANSCRIPT

[0:00 - 0:45] Why 90-Day Sprints Over 12 Months:

"Welcome to Origin. 12-month goals create complacency because the deadline feels far away. A 90-day quarterly sprint provides urgency. It forces intense focus and immediate execution."

[0:45 - 1:30] Phase I & II - Dream & Targeted Skill Mastery:

"In the first 30 days of the quarter, map your dream targets. In days 31 to 60, education becomes laser-focused. You acquire the exact 2 skills required for this quarter's sprint."

[1:30 - 2:30] Phase III - Purpose Execution & Quarterly Review:

"Days 61 to 90 are pure purpose and execution. You complete the sprint, measure your outcome, and reset for the next quarter. High focus. Zero burnout."
